

CARE & MAINTENANCE

Proper maintenance of your product is required to support the benefits of this warranty. This includes but is not limited to the owner's annual inspection of the frames and touch-up of any minor damage of the product. This warranty is voided in the event that there are indications of abuse or neglect to the furniture.

Close grain and natural oils make teak hard wearing, highly resistant to rotting and virtually impervious to the effects of sun, rain, frost or snow. All teak is kiln dried to insure stability, longevity and the natural beauty. After prolonged outdoor exposure, teak will begin to change to a soft, silvery gray. The beautiful golden color is natural and can be maintained with WeatherMaster Teak care products

- PROTECTING

- Inspect each season
- Requires periodic maintenance as it ages, to keep its like new appearance.

- CLEANING

- Frames: WeatherMaster Teak Care Products are available through your retailer.

They include:
